PRESIDENT'S MESSAGE

The Towpath Trail is a big deal going from Cleveland to New Philadelphia, passing through the Cuyahoga Valley National Park and our community. We have the only floating trail in the system. Come to see it and enjoy it!

Trail North of the Wilbeth Rd. Trail Head across the South end of Summit Lake

The storage buildings were removed by Metro Parks and the land is in the process of being cleaned up. The area is not large enough for a visitor center but plans for the future includes access from the lake to the canal for users to portage canoes and kayaks and a picnic area..

Towpath Trail on Manchester Road

In the future, it is planned to build a trail connection to the Firestone Park adjacent to the Firestone Country Club.

Parking lot on Manchester Road South of the former storage building site and the canal. There was a red barn on this site sometime ago.

In the future Metro Parks plans to build a visitor center on this site. This will feature the proposed water trail on the lakes, the Towpath Trail and also canal history.
