PRESIDENT'S MESSAGE

We, in the Kenmore Community are blessed to have the Towpath Trail running through our community. Many people use the trail for cycling, walking, running and access to the canal for fishing.

The trail is a resource for us and provides some good opportunities. The trail was a factor that Bridgestone/Firestone considered in deciding to keep its headquarters in Akron and it's building which is in construction now on Main Street.

We have access at three places to the Towpath Trail:

1. Manchester Road—A lot of people use this location for fishing. This may change when Metro Parks develops the area where the storage buildings are now.
2. Wilbeth Road—This is a new Trail Head with rest rooms, a drinking fountain and an information area.
3. Lewis Street (Just North of Kenmore Boulevard off Lakeshore) —There are no facilities here but it is convenient since it is right off the Boulevard.

Trail users can go North or South from all three locations.

North across the floating trail on Summit Lake is interesting and unusual.

South along the canal is interesting for wild life. There are ducks, geese and occasional Blue Herons and deer.
