### **PRESIDENT'S MESSAGE**

In the New Year that we are just beginning we expect to complete some things that we have been working on.

The construction for Kenmore Place is scheduled to start in the Spring. When that is completed then there will be additional people on the Boulevard with additional needs for services that will open new opportunities for businesses in our Village.

We will again work on plans to deal with vacant buildings on the Boulevard. There was not much interest in this project last year so this year we will try a different approach. You would think that anyone with a vacant building would want it occupied or sold. The completion of Kenmore Place should create incentives for development which will help with this project.

Last but not least is the clock tower which we expect to complete this year.

Remember there is no luncheon meeting in January since that is on New Years Day. Happy New Year!
