PRESIDENT'S MESSAGE

I had hoped to say in this newsletter that the clock tower project is finished. I can say that the bricks (tiles) are in and ready to be installed and that the clock is ready to be shipped.

The Lockhart Concrete Specialist who is working on this project has been working on another job and has not been available to work on our project.

The clock manufacturer wants to deliver the clock directly to the project site to avoid risk of damage (the clock is very large.) The delivery of the clock will be worked out with the construction specialist when he is available.

The dedication of the clock is planned to be in late October. We are excited about this event!
