“BRINGING BUSINESS BACK HOME”

PRESIDENT’S MESSAGE

Greetings to All!

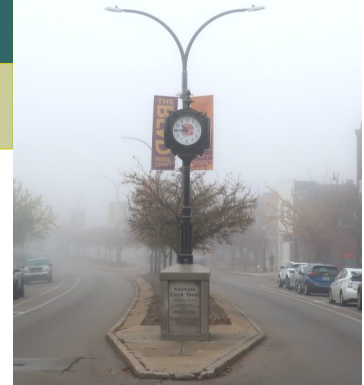

After a two year absence, it is time for the KCOC Holiday Party to return!

The **Kenmore Chamber of Commerce** will hold our “Holiday Meet & Greet” networking event at **The Rialto Theatre**, 1000 Kenmore Boulevard, on Thursday December 1st. We will start out with lots of great Hors de Oeuvres for everyone to enjoy while networking/socializing with your fellow business members. Then you can enjoy a great meal supplied by **Paninoteca**. Water and soda pop will be free, and an open cash bar will be available. After dinner, both last and this year’s McCutchen Award will be given, next year’s Board of Director’s will be sworn in, and some special entertainment may be provided.

This event is sponsored by the **Kenmore Chamber of Commerce**, **Anthem Insurance**, and **The Rialto Theatre**. Please join us from 5:30 to 8:00 pm for a chance to meet other Chamber members and Kenmore business owners, enjoy some food & entertainment, and have another chance to see all the remodeling done to make **The Rialto Theatre** even more beautiful than before! An RSVP is necessary, as although there is lots of room at **The Rialto Theatre**, seating for the catered dinner is still limited. So please call me at 330-304-9598 or e-mail me at john@kenmore-komics.com to reserve a spot for you and your guest. And it’s all FREE for our members! I hope to visit with you all soon.

Thank you for listening, and please be safe!

Now May Be the Time To Consider Solar

Thinking about solar?

Now may be a great time to get a quote when you consider:

- There are a number of incentives in the new Inflation Reduction Act, such as a 30% tax credit, that are making solar more affordable than ever.
- Energy prices remain high, shortening payback periods and increasing ROI.
- Utilizing solar with batteries can be a great solution for backup generation.

Viridi believes in a market-based approach to reducing greenhouse gas emissions. They aspire to empower a movement of individuals, businesses, and communities to make a positive impact on air quality, renewable energy development, and climate change.
